ON THE BOARDS: THE URBAN LOOK

A few projects currently in progress, (from top to bottom: townhomes in Charlottesville, VA; an apartment project in Yonkers, NY; and townhomes and condos in the City of Fairfax, VA) show a clear aesthetic towards urban and modern elements, through clean linear forms, flat roofs when possible, dark windows, metal or dark panels and bays. A welcome break from colonial and more traditional forms, this design trend seems to be gaining ground in urban and suburban venues alike.
