

MAKE AN ENTRANCE

Find a feature (or a few) that can define and visually unify a community.

Start with an element at the entrance - such as a gatehouse, pavilion, stone walls, or landscaped signage.

Use stained and stamped concrete at the main drive aisle and entrance intersections, giving them a uniquely-paved and welcoming look.

Continue the chosen theme throughout the community, incorporating elements into a park or a courtyard to give it the feeling of "home".
